# MY FIRST GARDEN

Make your first spring gardening experience fun, easy and delicious!  
Plant and grow your very own tomato and basil plants!

## YOU WILL NEED

EGG CARTON | SEEDS | SPRAYER | TROWEL | POTTING SOIL | GARDEN BED OR PLANTER

## SPROUT YOUR SEEDS

- 1 Soak seeds separately in water for 2 hours.
- 2 Remove the top part of your paper egg carton.
- 3 Fill each carton cup 3/4 full with potting soil.
- 4 Plant 2-3 seeds, 1/4 inch deep, into each cup.
- 5 Spray surface soil until very moist but not drenched.
- 6 Place your carton in a warm light filled area.
- 7 Once a day, spray soil until moist.

**Your seeds should sprout in 5 to 10 days!**

## PLANT YOUR SEEDLINGS

- 1 Fill your plant bed or box with organic potting soil.
- 2 Tear off one decomposable sprout cup from carton.
- 3 Dig a hole the size of your sprout cup into the soil.
- 4 Place a sprout cup into the hole, fill in with soil.  
Note: Paper egg cartons will decompose.
- 5 Repeat planting each cup until complete.
- 6 Water your new plants every day.
- 7 Watch your plants grow more and more each day.

**BASIL** 1<sup>st</sup> crop = 2-3 wks    **TOMATO** 1<sup>st</sup> crop = 9 wks
